АСТРОНОМІЯ: ЯК ЦЕ ПРАЦЮЄ?

HOW DOES IT WORK?

Астрономія використовує загальнонаукові методи. На основі спостережень вчені-астрономи розробляють гіпотези і теорії, які потім перевіряють шляхом експериментів. Після проведення спостережень астрономи аналізують дані й використовують їх для перевірки, покращення чи зміни вихідної гіпотези.

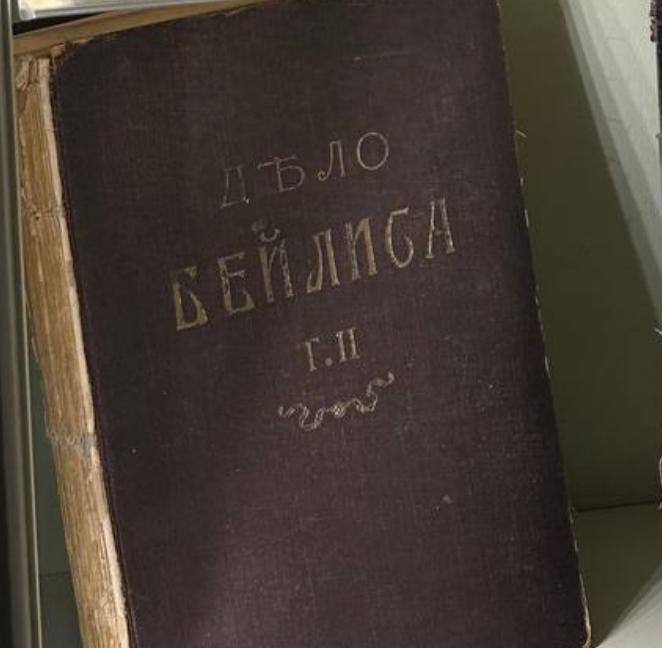

Astronomy works like any other science. Observations lead to hypotheses and theories, which are then checked against the results of new experiments, and modified or replaced if necessary. After carrying out an observation astronomers analyse their data and use them to test, improve and change their original hypothesis.

He is here to help us find our home.
He will guide us, he will lead us,
He will comfort us, he will heal us.
He will never leave us, he will never let us down.
He will always be there for us, he will always be by our side.
He will always be with us, he will always be our rock.
He will always be our strength, he will always be our light.
He will always be our love, he will always be our home.

At 2 o'clock, we took breakfast outside under a large tree. The weather was very nice. On our way to the University Hospital, we stopped at the women's office. I am not certain what it was, but there were many women there. Some were sitting on the floor, while others were standing around. We then continued on our way to the university hospital. There were many people there, mostly students. We then took a bus back to the hotel.

I'm the Lord your God who has taken
you out of the land of Egypt
You shall have no other gods but me
You shall not take the name of the Lord
your God in vain
You shall remember the Sabbath and
keep it holy
Honor your mother and father
You shall not murder
You shall not commit adultery
You shall not steal
You shall not bear false witness
You shall not covet anything that belongs
to your neighbor

A rectangular plaque with rounded corners, mounted on a light-colored wooden board. The plaque contains Hebrew text in black ink, arranged in several paragraphs. The text discusses the history of the building and its significance as a place of study and prayer.

Ці монети є зменшеними копіями грошей XI-XIII століття. На той час це були основні грошові одиниці на території Київської Русі.

These coins are miniature copies of 11th-13th century coins. During that time those coins were main currencies across the territory of Kyiv Rus.
